Invisible Injuries

Brain Injury in the Elderly

Webinar

August 1, 2018
12:00 p.m. CT / 11:00 a.m. MT

1.0 Continuing Education Contact Hours
awarded by Iowa Western Community
College, Iowa Board of Nursing Provider #6

Speakers

Peggy Reisher

Peggy Reisher has a Master's Degree in Social Work and is the executive director of the Brain Injury Alliance of Nebraska (BIA-NE) whose organizational mission is to create a better future for all Nebraskans through brain injury prevention, education, advocacy and support. Reisher has over 20 years of experience working and advocating for individuals with brain injury and their families across the state of Nebraska. Her personal goal is to create system improvement for those living with the effects of brain injury.

Dale Johannes

Dale Johannes suffered a brain injury 30 years ago that kept him in the hospital for 3 months and forced him to go through therapy for a total of 5 months when he was a junior in high school. He was able to graduate with his class the following year and move onto and graduate from college. Beginning in college, the focus of Dale's life has been on helping to make the lives better of individuals who have suffered brain injuries. He has spent more than 25 years working towards that goal. The focus of the last decade has been on individuals in the elderly population who have suffered brain injuries.

Peggy Reisher has identified no actual, potential or perceived conflict of interest. The Nurse Planners have identified no actual, potential or perceived conflict of interest.

Dale Johannes has identified no actual, potential or perceived conflict of interest. The Nurse Planners have identified no actual, potential or perceived conflict of interest.

Objectives

1. Participant will be able to define the prevalence of brain injury in the aging population.
2. Participants will be able to identify common causes and symptoms of brain injury in the aging population.
