

Danielle Landen graduated with her LPN in 2006 and her RN in 2007. She has worked in rural hospitals as an LPN and RN in all areas including Med/Surg, ER, geriatric, orthopedic, and OB. As a nurse in a rural hospital, Danielle received great experience/expertise in all areas. She then made a career change to Home Health with The Evangelical Lutheran Good Samaritan Society (GSS). She started working for GSS as a Case Manager and continued in that position until 2013 when she became the Branch Manager at the Alma location. In March of 2015, Danielle accepted the position as Administrator for the Kearney/Alma agency.

Since working in home health, Danielle has had the opportunity to experience all aspects including client care, marketing, telemonitoring, quality assurance, operational management, and financial management. She has been part of a telemonitoring pilot program to see the benefits of telemonitoring and reducing hospitalizations, worked with a sensor technology pilot program, and been on committees such as a financial software programming, Pharmacy committee, Revenue Cycle Workgroup, Productivity workgroup, and GSS Nursing Council. This past year she has also served on the Nebraska Home Care Association Program/Education Committee.

Danielle said, “I wish to be considered as a candidate for the Nebraska Home Care Association Treasurer because I have truly built a love for home care and all that home care entails. Home Care is the best kept secret to employees and patients. Home Care has grown so much since I have been in the area in the last 5 years and I only see it growing even bigger and better. I would like to be a part of that growth and help share my experience and knowledge and be a voice for all home care agencies. I am excited to learn about new and upcoming changes and experience that through the Nebraska Home Care Association board and be a part of a team to continue to make Home Care a great industry.”
